4. The specific parts of the application that my submission relates to are:

Give details

Submission number **RM220088-SUB18**
 OFFICE USE ONLY

5. My submission is:

Include whether you support or oppose the specific parts of the application or wish to have them amended; and the reasons for your views (extra sheets maybe attached if you wish).

I oppose application in general. The application seeks to erect a sign that is:

- Closer to an intersection than recommended (Nevis Street and The Esplanade). proposed 28m rather than the recommended 100m in section 2.1. TCDM3 guidelines
- Exceeding the maximum height for freestanding signs (proposed 9.5m vs 8m) as per district plan requirements
- Exceeding the maximum face area (proposed 24.5m² vs 20m²) as per district plan requirements

In all cases the proposal significantly exceeds the requirements or recommendations given by authorities.

The erection of the sign offers no benefit for the general community.

While the applicant provides evidence of some studies and assessments from which they draw the conclusion that the sign will not create significant additional risk to pedestrians/cyclists/motorists, the evidence provided is not comprehensive or detailed and does not assure that the sign will have no impact on the safety of the public. As a regular user of the area, it is already a very busy and distracting area and I have had near misses walking, cycling and driving due to distracted drivers. I believe this sign, as proposed, can only increase the danger in this area.

6. I seek the following decision from the consent authority:

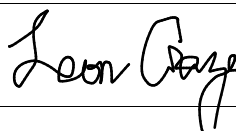

Give precise details, including the general nature of any conditions sought.

I seek the decision to deny this application for resource consent.

7. I ☐ wish ☒ do not wish to be heard in support of my submission.

8. If others make a similar submission, I ☒ will ☐ will not consider presenting a joint case with them at the hearing.
