Allowing LED billboards around Wellington harbour is a bad idea. These signs are visible for kilometres by line of sight. The illuminated sign by the Stadium is visible from the Eastern Bays, even during daylight hours. So the proposed sign would throw light pollution to more than just a few hundred metres of the Esplanade, and would be visible from many points around the hill suburbs, especially after dusk. Its proposed dimensions would make it considerably higher than the surrounding land and trees, meaning it would also be visible at sea level from any point both on the water and around the shoreline of the harbour.

6. I seek the following decision from the consent authority:

Give precise details, including the general nature of any conditions sought.

Reject application. Alternatively, reduce usage to daylight hours (dawn to dusk), and reduce height to the mean height of foreshore dunes to the south.

7. I ☐ wish ☒ do not wish to be heard in support of my submission.

8. If others make a similar submission, I ☐ will ☐ will not consider presenting a joint case with them at the hearing.
