5. My submission is:

Include whether you support or oppose the specific parts of the application or wish to have them amended; and the reasons for your views (extra sheets maybe attached if you wish).

We oppose the application on the grounds of negative effects on traffic safety. By their nature, advertising signage is designed to attract the attention of road users. We submit this would have negative effects on traffic safety. The dimensions and visual impact of this proposed electronic billboard are aggravating factors. People on bicycles are extremely vulnerable to the impacts of distracted road users. We note there has been a fatal truck v cyclist crash on the Petone roundabout, close to this location. The Esplanade is a complex and busy 50 kmh road with a high number of heavy vehicle movements. There is little room for error. Road users need to pay full attention. We submit the proposed sign is incompatible with the Council's road safety responsibilities. Additionally, such a sign would set a precedent for other applications.

6. I seek the following decision from the consent authority:

Give precise details, including the general nature of any conditions sought.

We seek the consent authority declines the application.
